

Application to conduct doping tests with WORLD SKATE (WSK) as Test Authority and Results Management

Athletes from more than one country competing

Tests involving International athletes will usually have WSK as results management.

Athletes from one country or National Federation Competing

For controls which involve athletes of a National Federation only the NADO will be the Results Management authority. In this case the NADO will be responsible for selecting athletes to be tested and allocation of the testing menu and WSK will not be involved.

National Federations, Continental areas and affiliates ordering tests under WSK

All National Federations, Confederations, Discipline and Branches who wish to test athletes where WSK is the test authority (TA) and Results Management Authority (RMA) must notify WSK of the test distribution plan in advance and forward a copy of doping control forms (DCFs) to WSK office within 5 working days.

Testing Menus for All WSK tests & organisation

All controls must be in compliance with WADA international Standard for Testing, FIRS Anti-doping Policy and the Technical Document for Sport Specific Analysis (TDSSA) menu.

An accredited sampling agency is to be used and the Federation co-ordinator must be appointed as the WSK test co-ordinator to ensure the doping control officer (DCO) allocates the test to the correct discipline on the DCF and paperwork for the WADA accredited laboratory.

Administration of Tests ordered under WSK

A test co-ordinator must be appointed prior to the tests and notified to WSK

The appointed WSK test co-ordinator will be responsible for

- Communication with WSK doping control manager and WSK office
- Provision of suitable facilities for doping control and adequate sealed drinks for athletes
- Ensuring all rules of International standards of testing are adhered to
- Athlete selection in accordance with Test Distribution Plan (TDP)

- Ensuring that WSK is the test authority and results management authority on the doping control forms
- Ensuring that the correct discipline is recorded on the doping control form ie inline speed >1000m or 1000m or less.
- Ensuring that the doping control forms are returned to WSK in 5 working days.

Technical Document for Sport Specific Analysis (TDSSA) Menu

All sports have a sport specific testing menu allocated by WADA. A specific testing menu will be mandated for the new disciplines effective 1 January 2018.

Rollersports menu is:

ESA erythrocyte stimulating agents – EPO and analogues

Event	ESA	Number	GHRF	HGH	Number for both HGH and GHRF
Speed >1000m	30%	1 in 3	10%	10%	1 in 10
Speed 1000m or less	15%	1 in 6	10%	10%	1 in 10
Hockey	5%	1 in 20	10%	10%	1 in 10
Artistic	5%	1 in 20	5%	5%	1 in 20
Skateboarding	5%	1 in 20	10%	10%	1 in 10
Inline alpine & downhill	10%	1 in 10	10%	10%	1 in 10
Inline Freestyle	0%		5%	5%	1 in 20
Roller Freestyle	5%	1 in 20	10%	10%	1 in 10
Roller Derby	5%	1 in 20	5%	5%	1 in 20

TDSSA for the new disciplines will apply from 1 January 2018

Organisation requesting permission to conduct doping tests with WSK as TA and RMA must apply to WSK and undertake to adhere to the testing menu. The organisation ordering the controls is responsible for ensuring the obligatory testing menu for Rollersports are complied with and for making good the financial impact on FIRS any short fall compared to the test distribution plan.
