Dear Athlete

If you may be competing at the ***Olympic Games***, the following information is important to you.

If you have a TUE granted or approved by ***World Skate***, you will need to apply to the ***International Testing Agency (ITA) TUE Committee*** at least by mid-June for them to approve your TUE prior to your participation in the Olympic Games. Further information about how to do this will be supplied when available and will be available on the IOC webpage.

In the meantime, please review your TUE and medical file to ensure your TUE reflects the current medication, dosage and method of administration for the preparations you are using and that your TUE does not expire before the end of the Games. If your TUE is no longer up to date or current, please apply for a renewal to ***World Skate*** now by providing the appropriate medical files and completed application form signed by yourself and the treating doctor.

Please also ensure that any requested medical updates listed on your TUE approval have been supplied.

All information regarding current TUEs approved by World Skate is available to ITA TUEC on ADAMS.

Please ensure that you have an organised and up to date medical file prepared, in case ITA TUE Committee require to review your medical file prior to approving your existing TUE.

Information with regard to the *2021 Prohibited List, criteria for TUE Approval Process and the World Skate TUE application form* are in the reference documents above – see links.

If you are using a prohibited substance or method to treat a medical condition and you don't have a TUE in place you need to apply to World Skate for a TUE now. Please click on link to *2021 Prohibited List, World Skate TUE Process and World Skate TUE application* above for instruction on how to do this.

If you need a TUE for new or emergency use of prohibited medication during the period of the Olympic Games, you will need to apply to *ITA TUEC*. Details of how to do this will be available on the IOC webpage

TUEs approval by ITA TUEC for the Olympic Games are valid for Olympic Games only.

If there is a new or updated TUE approved by ITA TUEC you will have to submit it and the medical file for approval by World Skate TUEC for it to be approved by World Skate. Medical details will be available in ADAMS for review by WSK TUEC.

World Games and other Multi-Sport Events

A similar situation with regard to approval and acceptance of TUE exists for World Games and other multi-sport events.

Information is available on the website of the event in question.

If you require further information, please contact
