## PRO TOUR - UPDATE

---

Following the recent communications that have circulated about our first SLS Pro Tour event of 2020 being held in Australia, World Skate would like to share it's official position as the International Federation on event conditions and to update all our stakeholders on what the next steps will be.

The wildfires and smoke have affected all the major sporting events in Australia, putting athletes and staff in an unprecedented and tough situation.

World Skate and its partners' priority is to protect the health and welfare of skateboarders and staff.

We are continuously monitoring the effects of bushfires on the city of Melbourne and we are in permanent contact with the City to be informed on its contingency plans.

We are aware that many of you have already invested time and resources preparing for this event, we will keep you updated as the situation evolves and hope to communicate a final scheduling decision in the coming days.
