

March 27th 2020

Dear Sirs,

As mentioned previously, the health and safety of skaters and staff is and remains World Skate's top priority.

Given the spread of COVID-19, which continues to impact the entire world, the decision to indefinitely postpone the World Championships currently scheduled to be held in London at the end of May, has been taken.

As we learn more information in the weeks to come, World Skate will work with organizers to restructure and reschedule Season #2. Suspended events will be considered as part of the possible future rescheduling.

Thanks for your understanding.

Best Regards,

Roberto Marotta
Secretary General
