STREET SKATEBOARDING

FROM 17th TO 21st March 2020

BULLETIN N° 04

DATE 13/03/2020

HEALTH AND SAFETY PRECAUTIONS

The Singapore public health authority has today added further conditions to events being hosted in Singapore.

These are now implemented in our event plans and we are on track for a safe and successful event.

- The attendance to the event has been limited to 200 people including athletes, staff and officials.
- The event will be closed to the public.
- The organizer will make the event available on live stream through their Facebook channel and equivalent partner in China. This will start with the qualifiers on the 19th and continue with semifinals on 20th and finals on 21st March.
- Each zone in the venue will be limited to 50 people. This will help in social distancing measures being advised by the health ministry in Singapore and many other countries.
- Temperature controls will be held at: registration, at the venue, and at the official hotel. This means that temperature will be checked at every pass through these entrances ensuring independent temp checking many times per day.

Almost 50% of Singapore's COVID-19 cases have been discharged from hospital. Many of these are import cases from visitors or Singaporeans visiting from other countries.

To minimize these cases, the government has placed travel and immigration restrictions on certain countries.

The organizers are working with these countries to limit the impact on visitors that route their travel from airlines that pass through these countries but like all sovereign countries, the ultimate decision on any immigration rests with their respective authority.

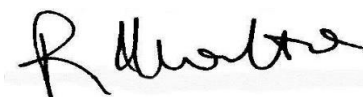

Furthermore, the organizers will provide tight security at the event to ensure there's no breaches of protocol and movement of people as listed above.

Thank you.

Best Regards,

Guoyong Liu
