

March 16th 2020

Dear Sirs,

We communicate that the World Cup Roller Freestyle FISE at Hiroshima will be rescheduled.

The stop was due to take place on 3rd-5th April.

Hiroshima government has requested that we postpone the event. Baseball, football and other big sporting events in April have been cancelled or postponed due to the spread of COVID-19.

It would be impossible to held this event in April in this situation. The event is to be rescheduled in May 2020.

Your welfare will remain our top priority. We will of course keep everyone updated as the situation develops.

Thank you.

Best Regards,
