1 INTRODUCTION

This document provides information about the updated software for Rollart System version 5.3 (2026). To learn about this product, see:

- Reference documentation, including documentation about how to install the software in listed in the Related Documentation section below.

2 NEW IN THIS RELEASE

2.1 New Features

CATEGORY	APPLIED TO	DESCRIPTION
Licenses	System	<p>The 'Rollart Tech Panel 5.3' application is under license. The main features are:</p> <ul style="list-style-type: none">• digital signature technology is used to protect the license file• Single license mode: PC's unique key is generated based on PC's hardware• One license is good for only one PC• RollArt TechPanel can run in <i>Unlicensed</i> mode (less features available) <p>Activation license procedure</p>
Values and Parameters	System	<p>To ensure the correct loading of all values and parameters, Rollart TechPanel 5.3 checks the presence and the integrity of a zip file (RollartRules.zip) and its hash (RollartRules.sha).</p> <p><u>If the zip file or one of its files is externally modified or is corrupted, Rollart displays an error.</u></p>
Event management	Skating Order	<ul style="list-style-type: none">• New way to insert music info for a list of skaters

		<ul style="list-style-type: none"> New field 'club' added in the Scheduling form
Event management	Official Panel	New function that allows printing the official panel (tech and judges) for the selected event
Event management	Results	New function that allows exporting in .CSV the event results
Reports	LIVE Results	Together with the LIVE panel, Rollart will generate one single RESULTS pdf with the partial rank
DO interface	All	For each discipline, the current time and computer battery percentage have been added to the interface.
DO interface	All	Details of each judge have been added, including their name and country.
DO Interface	Couple Dance	Traveling, Cluster No Hold and One foot elements will have a double call for Man (first) and Lady (after)
DO Interface	Couple Solo Dance	In the Clusters and Pattern elements it will be possible to insert the number of confirmed turns, features and the reason in case of No Level element
DO Interface	Free Skating	New function that allows to manage a "saved" combojump, assigning half the value to all elements of the combo, starting from the first jump.
DO Interface	Free Skating	New function that allows to assign automatically a 20% to all the positions of a combospin (Different feet)

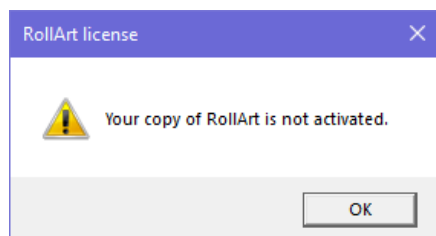

2.2 Changes to existing features

CATEGORY	APPLIED TO	DESCRIPTION
Event management	Event	Checkboxes added in the events list allow to delete or reset one or more events in an easier way
DO interface	All	The element summary window has been eliminated. After the judges submit their components and QOEs, the score is displayed directly.

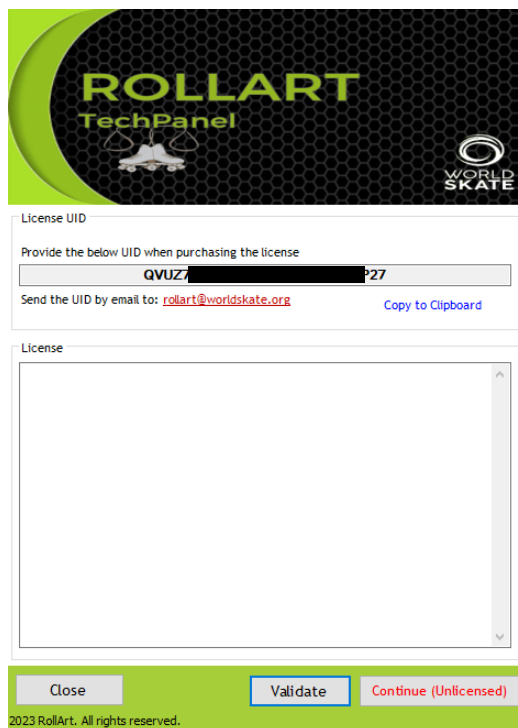

DO interface	All	The segment parameters are verified only in the VERIFY phase and not when the DO clicks on CONFIRM
DO Interface	Free Skating	Break, DF and BD bonus will be assigned automatically to all confirmed positions of a combospin from the selected one.
Referee Panel	Deduction	New way to enter deductions

2.4 Activate your license

- Rollart TechPanel launches and finds itself not activated:

- It displays the activation form and shows the current device UID needed to activate the license:

- Each federation shall send this device UID to World Skate to obtain the license, by mail. Please complete the mail object by filling Name and Federation:

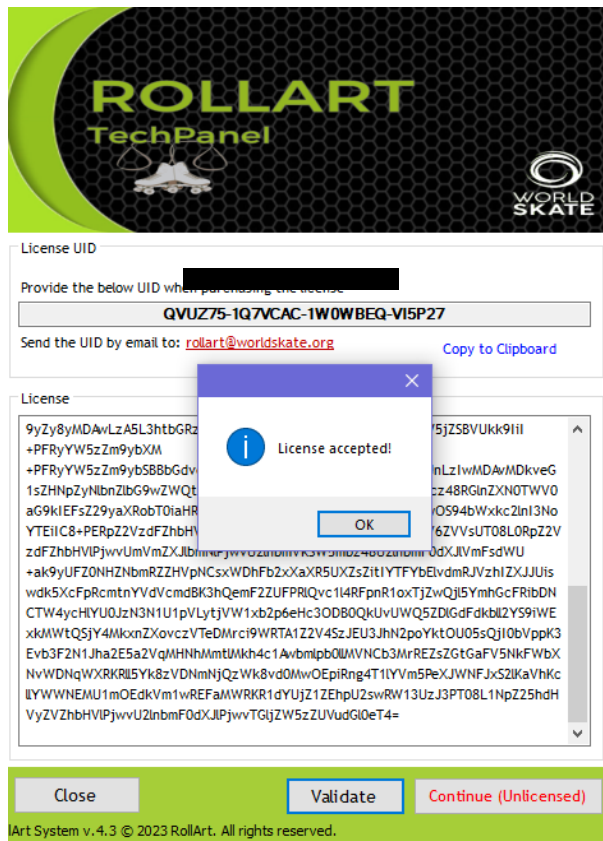

MailTo: rollart@worldskate.org
Subject: RollArt License

Object:
 My UID: 10X9A**-*****-*****-1B2F9MN

Please insert the following information to obtain your personal Rollart license:

- Name:
- Federation:

- After license is generated, World Skate will send the license file in attachment by mail to the Federation for activation.
- User will paste the license string into the activation form to activate Rollart Tech Panel:

3 FIXED ISSUES

3.1 List of the fixed issues

#	SCOPE	DESCRIPTION
1	Free Skating - Pairs	Fixed a bug on SBC: Sit Between Camel bonus is now applied automatically to the last confirmed position
2	All Disciplines	Fixed a bug on SKATING ORDER : in case of one group and event already started Rollart allows now to change the skating order of the remaining skaters
3	Compulsory Dances	Fixed a bug on TIES : in case of ties, Rollart applies now correctly the WS rules (<i>the Skater with the highest technical score will win</i>)
