UNOFFICIAL TRAINING SESSIONS

As announced in [WSG General Bulletin#04](#), the Local Organising Committee (LOC) is hosting unofficial practice sessions on the Street & Park FOPs ahead of the official training sessions. See the [venue booking policy for Scootering](#) for more information.

There are multiple two-hour unofficial training slots per day, and each slot costs \$20 (USD) per athlete. As outlined in the policy above, these sessions are non-exclusive and may be shared with other World Skate disciplines. Only one slot can be booked per athlete per day.

Sessions terms for each discipline are below:

Park (25 September - 1 October): max. 12 athletes per session
Street (25 September - 2 October): max. 25 athletes per session

These sessions are only bookable by athletes whose registration has been completed in Infinity. Unofficial training sessions are organised and conducted directly and exclusively by the LOC.

For full information and to book unofficial training, please visit their website [here](#).

For any questions or assistance regarding venue bookings, please contact venuebooking@juegosasu.org.py

REGISTRATION, MINORS' PARENTS & LEGAL GUARDIANS

Minors' (U18) parents or legal guardians will be able to register to the event by clicking [here](#).

Only one legal guardian or parent per minor athlete can be registered.

The registration is ongoing and the deadline is September 10th, 2026 (23:59 CET).

The legal guardian/parent is expected to be present with their relevant athlete each day at their required registration time to sign documents.

Please note that providing your data and Passport in Infinity as a verification process for a minor athlete's profile, does not guarantee a credential for the event.

After completing the Form above, parents and legal guardians (if they haven't done it yet) are required to sign up and create a profile on Infinity as explained in the previous section. Parents and legal guardians must select "Other" as a category when required during the registration process in Infinity.
