ANTI-DOPING

The doping controls, the sample collection processes and the laboratory analysis will be conducted in accordance with the World Anti-doping Code and the OCA (Olympic Council of Asia) Antidoping Rules..

During the sign-up procedure to the Sports Registration System (World Skate Infinity, please see above), all athletes and staff members must upload a valid Anti-Doping Training Course Certificate. Specifically, all athletes heading to the Games will need to complete the ADEL, which is provided by WADA, for International Level Athlete (ILA) e-learning module and all coaches will need to complete the ADEL for Coaches of High Performance (CHP) e-learning module successfully.

All competing athletes are classified as International-Level Athletes and must hold a Therapeutic Use Exemption (TUE) in advance for medical use of prohibited substances. Pre-existing TUEs will follow the recognition process and there is no need to re-submit a TUE. Athletes without a valid TUE must submit an application directly to the ITA (the International Testing Agency) according to the following [process](#).

Should you need a new Anti-Doping Training Course Certificate, please visit the [WADA ADEL platform](#) and complete the relevant Course, according to your role.

We remind you that the [WADA ADEL platform](#) is not run by World Skate; therefore, should you have any issue in this regard, you will need to contact WADA's support directly.
