FROM JULY 23th TO AUGUST 8th, 2021

BULLETIN N° 06

DATE 06/10/2020

OLYMPIC WORLD SKATEBOARDING RANKINGS UPDATE (OWSR)

Following policy changes announced in August for the inclusion of points to the **Olympic World Skateboarding Ranking (OWSR)**, the platform at www.worldskate.org/skateboarding/rankings has been updated to reflect these new policies.

The maximum number of National Championships to be included for homologation in the **OWSR** is 2, with a maximum of 1 National Championship per calendar year. Each athlete will be listed in the **OWSR** with 1 score from their best National Championship performance over the entire qualification system (season 1 and season 2). Event points for National Championships will be added to the **OWSR** after the 31st of May 2021, or two weeks before the World Championships 2021, as part of season 2. Further information about the homologation of National Championship results can be found [here](#).

With reference to **Continental Championships**, results will be reflected in the **OWSR** only after all continents have had their point opportunity. If any of the 5 continents didn't have a point opportunity, Continental Championship points will not be added to the **OWSR**

National Championship placings are currently still visible via athlete profile pages, however, in order to increase the quantity of information publicly available, we are working on further enhancements to the **OWSR** web application. More information will be released upon the application's update.

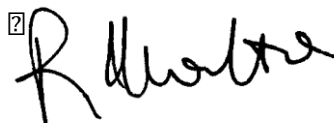

For any concerns, please contact us at sportsdepartment@worldskate.org

We appreciate your understanding and support.

Best Regards,

Gary Ream
Skateboarding Commission
Chairman

Roberto Marotta
Secretary General
