

February 26th 2020

Dear Sirs,

Due to the continued global outbreak of the Novel Coronavirus (2019-nCoV), the connected risks, travel restrictions and quarantine provisions that many countries around the world have established for travelers going to and from China, after having carefully observed and evaluated the situation, World Skate has decided to **suspend** events scheduled to happen in China in April until further notice.

This provision applies to the following events:

- International Skateboarding Open of Street & Park (Yancheng) currently scheduled from the 13th to 19th of April 2020
- International Skateboarding Open of Street (Nanjing) already suspended as of February 14th.

A possible rescheduling of the suspended events will be announced as soon as we have any update.

We appreciate your understanding.

Best Regards,
