Information

Prevention Covid-19

All participants (Skaters, Staff, Judges, Photographers, etc...) will be subject to controls to prevent the spread of COVID-19:

- Valid Covid-19 Green Pass
- Or
- Negativ Swab Covid-19 Test each 48h

The organization will provide, to all participants who do not have a Green Pass, the possibility to realize swab tests in the venue every 48 hours for free (no cost). These tests are scheduled upon accreditation.

If any member of a delegation tests positive, the organization will immediately contact the local health authorities and will carry out a swab test to the nearest delegation (usually the skater's coach and roommate) even if they have a green pass.

It is mandatory to wear a protective mask during the stay in the pavilion except the skater during the training, warm-up and competition.

Attached is the covid document that must be delivered in the completed accreditation.

Audience

Admission to the pavilion is free and everyone is welcome to watch the Cup. To enter must present a negative swab test within the last 48 hours or present a green pass. Children up to 12 years old are exempt from this obligation.

It is mandatory to wear a protective mask during the stay in the pavilion.

Accreditation

Each participant will have a credential that must always be present. It is this credential that will allow you to enter the venue and control the Negative Test or the Green Pass. This credential has a photo of the participant. The credential has a QR Code that allows the opening of a website with all the skater's information (Covid test / Green pass, skating order, results, information, etc...).
