PACK DEFINITION

WORLD SKATE

BASIC DEFINITION

Pack is the group B1

B2 **Pack is the mixed group**

B3 **Pack is the largest mixed group**

Yes

Yes

Yes

One group?

No → Are there any mixed groups?

Yes → Only one mixed group?

No → A mixed group is larger than other mixed groups?
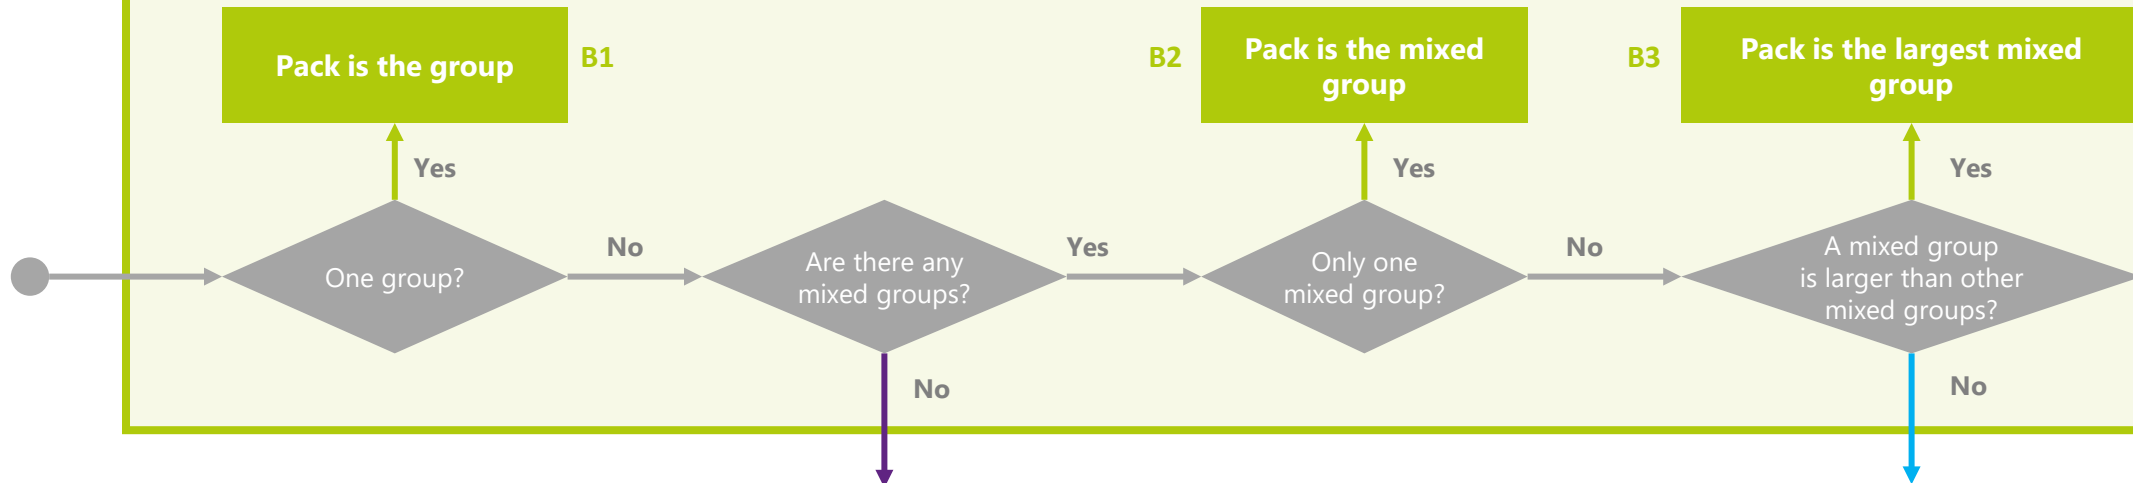

No

No

Pack is most forward group with all blockers from a team

When two (2) or more groups of Blockers exclusively comprise players from the same team, the Pack is the group comprising all Blockers on a team and positioned most forward on the track.

EXTENSION 1

Pack is the largest and most forward mixed group

When two (2) or more groups of Blockers comprise an equal number of players , the Pack is the largest group with Blockers from both teams and most forward on the track.

EXTENSION 2

- Groups are determined by proximity (3m/10ft)
- Mixed groups have blockers from both teams
- Team groups only have blockers from the same team

BASIC DEFINITION
The Pack shall be the largest group of Blockers comprising players from both teams in proximity to one another, excluding Scorers.

EXTENSION 1
When two or more groups of Blockers exclusively comprise players from the same team, the Pack is the group comprising all Blockers on a team and positioned most forward on the track.

EXTENSION 2
When two or more groups of Blockers comprise an equal number of players, the Pack is the largest group with Blockers from both teams and most forward on the track.

NOT DEFINED
In this situation the pack cannot be defined momentarily. There will be no engagement, but no penalties will be assessed.
