In case of an OWSR tie, the next highest points result will be used to break the tie, repeated with additional highest results until the tie is broken.

This point system was originally released on 25 June 2022. Following a temporary adjustment period (January 2024 - June 2025), this specific points structure was officially reinstated and brought back into force on 22 July 2024, ruling the Inter-Qualification Period (IQP) between Paris 2024 and Los Angeles 2028 Olympic Games. Details can be found in the relevant [bulletin](#).
